Relocating permanently to the Netherlands | Available from Q1 2027
U.S. citizen requiring employer-sponsored Dutch work authorization

U.S.-trained Doctor of Chiropractic with 10+ years of clinical experience, including seven years as the owner of a private practice. Experienced in physical and orthopedic examination, clinical decision-making, diagnostic X-ray acquisition and analysis, Diversified and Thompson techniques, instrument-assisted adjusting, Active Release Technique, prenatal care, spinal decompression, rehabilitation and patient education. Comfortable managing a high patient volume while maintaining individualized care and clear communication. Seeking a long-term employed chiropractor position within an established Dutch practice.

PROFESSIONAL EXPERIENCE

FOUNDER AND CHIROPRACTOR

The Edge Chiropractic Center | Englewood, Colorado | January 2019 - Present

- Founded and currently operate an independent chiropractic practice, overseeing the complete patient journey from initial inquiry through examination, care planning, re-evaluation and transition to maintenance or wellness care.
- Manage patient volumes exceeding 100 visits per week while maintaining individualized care and clear patient communication.
- Lead new-patient consultations, examinations, diagnostic X-rays and clinical decision-making to identify contributing factors and establish appropriate plans of care.
- Deliver chiropractic adjustments, soft-tissue treatment, Active Release Technique, spinal decompression, mobility work and corrective exercises based on individual patient needs.
- Conduct structured re-evaluations, track objective and functional progress, adapt care plans and transition patients toward maintenance or wellness care when clinically appropriate.
- Manage front-desk systems, staff direction, scheduling, finances, compliance, marketing, community outreach and vendor relationships.

PROFESSIONAL EXPERIENCE - Continued

ASSOCIATE CHIROPRACTOR

New Wave Chiropractic Center | Carlsbad, California | January 2016 - May 2018

- Led new-patient consultations, examinations, diagnostic X-rays and clinical decision-making to identify contributing factors and establish appropriate plans of care.
 - Delivered chiropractic adjustments, soft-tissue treatment, mobility work and corrective exercise based on each patient's presentation and clinical needs.
 - Completed regular progress examinations, documented clinical outcomes and modified care plans based on objective findings and patient response.
 - Provided clear, accessible patient education and guided patients through examination findings, treatment recommendations, progress expectations and home-care strategies.
 - Participated in clinic systems, patient retention efforts, community outreach and practice-growth activities.
-
